**WAGE RATE REQUIREMENTS**

Payment of US Department of Labor (Davis-Bacon) prevailing wages includes all wage rules in the Davis-Bacon Act. Section 1606 of the Act states as follows: "Notwithstanding any other provision of law and in a manner consistent with other provisions in this Act, all laborers and mechanics employed by Contractors and Subcontractors on projects funded directly by or assisted in whole or in part by and through the Federal Government pursuant to this Act shall be paid wages at rates not less than those prevailing on projects of a character similar in the locality as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code. With respect to the labor standards specified in this section, the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (64 Stat. 1267; 5 U.S.C. App.) and Section 3145 of title 40, United States Code." The general prevailing wage rate of per diem wages, holidays, and over-time work for each craft, classification, or type of workman needed to execute the Contract as established by the Secretary of Labor in accordance with the Davis-Bacon Act. Copies of the Prevailing Wage Schedules may be obtained from the U.S. Department of Labor, <https://sam.gov/content>

In addition, the State of California includes the general prevailing wage rate of per diem wages, holidays, and over-time work for each craft, classification, or type of workman needed to execute the Contract as established by the State of California, Department of Industrial Relations, which can be obtained from [www.dir.ca.gov/DLSR/PWD/](http://www.dir.ca.gov/DLSR/PWD/). The Wage Decision, including modification, must be posted by the Contractor on the job site. If there is a difference between the minimum wage rate determined by the Secretary of Labor and the prevailing wage rates determined by the State of California for similar classifications of labor, the higher wage rate shall prevail.

Additionally, projects funded with monies made available by SRF have statutory requirements commonly known as "American Iron and Steel;" that requires all of the iron and steel products used in the project to be produced in the United States ("American Iron and Steel Requirement" (AIS)) including iron and steel products provided by the Contractor pursuant to this Agreement. Manufacturers and/or models listed herein may or may not provide materials meeting AIS. If listed manufacturers cannot provide AIS materials, it is still incumbent upon the Contractor to meet AIS requirements at no additional cost to the Owner.

(Government Code, § 7550; 40 CFR § 31.20). Bidders are notified that financing for this project is provided pursuant to SRF Program and the Division of Financial Assistance, and that as allowed in Public Contract Code Section 22300, this Contract does provide for substitution of securities for any monies withheld by the Owner to ensure performance under this Contract. Bidders are further notified that this Contract does permit retainage to be placed in escrow and/or to be invested for the benefit of the Contractor. SRF funding for this project includes strict guidelines for Disadvantaged Business Enterprises (DBE). Good Faith Efforts (GFE) are required for all financial agreement Recipients and Bidders to ensure that all DBEs have the opportunity to compete for procurements funded by financial assistance dollars.

**Six Good Faith Efforts Include:**

1. Ensure DBEs are made aware of contracting opportunities to the fullest extent practical through outreach and recruitment activities. For Bidders, Tribal, State and Local Government Recipients, this will include placing DBEs on solicitation lists and soliciting them whenever they are potential sources.
  2. Make information on forthcoming opportunities available to DBEs. Post solicitations for bids or proposals for a minimum of 30 calendar days before the bid opening date via internet, in trade journals, Building Exchange, emails, etc. The Recipients and Bidders shall post at least once in a local newspaper with the largest circulation for the area.
  3. Consider in the contracting process whether firms competing for large contracts could subcontract with DBEs.
  4. Encourage contracting with a group of DBEs when a contract is too large for one firm to handle individually.
  5. Use the services and assistance of the Small Business Administration (SBA) and Minority Business Development Agency (MBDA) of the Department of Commerce.
  6. If the prime contractor awards subcontracts, the prime contractor is required to take the above steps.
- Owner reserves the right to accept or reject any and/or all Bids and to make that award which is in the best interest of the Owner.
